

WHY FINANCE & ECONOMICS AT ALGOMA U?

Our faculty are committed to a hands-on learning experience where students are able to establish a personal relationship with their professors. This fosters a very intimate and interactive learning environment. Our program concentrates on theory, applications, and explorations in current and policy-related issues at the regional, national, and international level. Students will study the roles of governmental, business, and financial institutions, as well as individuals as they interact to determine the distribution of a country's total range of goods and services.

Upon graduation, students will have a solid foundational working knowledge of various economic and financial terms, concepts, and principles. Students will know how to solve complex problems, and distinguish between correct and incorrect applications of economic concepts. They will be able to review, present, and interpret quantitative and qualitative information and will thoroughly understand the limits that exist within the realm of finance and economics.

By graduation, they will also have perfected their communication skills and be able to conduct themselves in a professional manner in the work world.

COURSE HIGHLIGHTS

Aside from academics, Algoma University's economics program differs from others due to its student body. Algoma University's student body is one of the most diverse in Canada. With over 24 percent of our students coming from outside of Canada, our student body is reflective of today's global marketplace. By having such a diverse classroom, students are exposed to new and differing ideals and opinions, in regard to laws, customs, and finance. Thus, our classrooms reflect the real world. Once students have graduated from the program, they will have an understanding of economics and how to work with a diverse clientele – both of which are assets to resumes. Plus, Algoma U grads know the benefits of working in a diverse workplace, a key question asked in interviews by employers in today's competitive workforce.

LEARNING OUTCOMES

- Define and understand various economic and financial terms, concepts and principles.
- Apply economic and financial concepts needed to define or solve problems.
- Defend or refute economic policies adopted by various levels of government.
- Identify the appropriate conditions for market economy to function well.
- Understand different goals and objectives of business.
- Understand how monopolies and big businesses compete in the global economy.
- Understand the role of Bank of Canada (Central Bank) and its monetary policy.
- Understand the role of economic policies in related disciplines.
- Develop lines of arguments.
- Write business plans and economic and financial reports.
- Develop and estimate economic models, formulate and test hypotheses and perform basic forecasting.
- Collect and interpret economic and financial information.
- Use qualitative and quantitative skills to communicate accurately and reliably, orally and in writing.

WHY STUDY AT ALGOMA U IN SAULT STE. MARIE?

Algoma U is located in Sault Ste. Marie, a city of 75,000 people in Northern Ontario. "The Soo", as locals call it, has all the amenities of a big city – shopping, entertainment, sports teams, festivals, and cultural activities – but without the hassle of traffic.

Enjoy urban living and study in the heart of downtown Brampton. With the GO and Via stations only steps away, students can take the bus or train to class and easily connect to the GTA.

ADMISSION REQUIREMENTS

ENG4U, two U/M Math (MDM4U recommended); Minimum 65%.

Applying to Algoma U is simple. We're ready to help answer all of your questions and more. Before you know it, you'll be walking across campus to your first class.
